

iNet® Exchange

Streamline Gas Detector Maintenance and Repair with iNet® Exchange

If you are responsible for managing a gas detection program, you may struggle to ensure that instruments are always ready and working properly. Even simple maintenance can become a costly headache when you have to keep extra gas monitors and spare parts around.

iNet® Exchange is a subscription-based service for gas detectors covering repair and replacement. iNet Exchange simplifies operations across all aspects of your gas detection program—gas detector availability, cost, and ownership—by delivering equipment on demand. There is no need to worry about instrument warranties, paperwork of processing the claim, or time to wait for new equipment. Parts, equipment, and shipping are covered, and even damaged instruments can be traded in. As an iNet Exchange customer, you will always have the equipment you need, when you need it.

Ensure gas detectors are there when and where you need them

- Avoid downtime with proactive gas detector replacement, typically within 48 hours
- Eliminate the costs of extra parts, monitors, and calibration gas
- Eliminate the time spent managing warranty claims

Pay for only what you need, when you need it

- Increase or decrease the number of instruments in your fleet to meet demand
- Get everything you need for your gas detection program including setup, training, calibration gas, and maintenance and repair through one service
- Add rental equipment at discounted rates for temporary projects

Eliminate unexpected gas detector expenses

- Set up your iNet Exchange program with no capital up-front investment
- Lock in a fixed cost that covers all necessary items including gas detectors, shipping, calibration gas, docking stations, and more
- Receive replacement units automatically without making additional purchases

With iNet Exchange, you can focus on your people's safety rather than managing gas detector logistics. We handle everything from setup to maintenance and repair.

Benefits of iNet Exchange vs. Warranties

✘ WARRANTY	✔ iNET EXCHANGE
RMA/warranty claim forms must be processed	Replacement gas detectors automatically ship
Weeks or months to receive repaired instrument	Equipment typically shipped within 48 hours
Extra gas detectors needed while waiting for warranty repair	Right-sized fleet always available for use

Tired of Managing Calibration Gas Cylinders?

Calibration gas can be included in your iNet Exchange subscription or ordered and invoiced automatically. With either option, you will receive new gas cylinders automatically before you run out to ensure that operations stay up and running.
